- Cover with LCD and 4 external push buttons

The positioner in version with LCD is available with three different menu languages:

Standard menu languages:

- English
- German

Freely definable third language (additional languages on request):

| - Italian | - Swedish, ... | - see ModelCode |

The third menu language has to be selected and specified with order.

The pre-set menu language is English. This menu language can easily be set to another pre-configured menu language by means of the local push buttons.

All "freely definable" third Menu languages can be downloaded into the positioner by means of the operation- and configuration software VALcare™. This way also the pre-configured third language can be modified. The additional language [downloads](#) are available on our homepage.

Despite some special functions all configurable parameters are accessible by means of the local push buttons.
