The COMBIVERT S6 servo system adds a compact, flexible and powerful drive module to the KEB product portfolio for highly dynamic servo applications.

The optimally selected KEB components are the key to this successful drive concept. At the heart, the innovative S6 servo drive is offered in an attractive book-style format and offers real-time performance. The S6 drives can be matched with the robust DL3 servo motors which are available in five sizes. Additionally, the DL3 servo motors may be paired with planetary gearheads with low rotational backlash. You can now design the complete servo drive system that is best suited to your application.

The package is made complete with pre-fabricated motor and encoder cables, which create the ideal conditions for easy installation, quick start-up and problem-free operation.

Let the following pages inspire you with regards to the diversity and performance of the COMBIVERT S6 servo system, and help you to find a drive solution that reliably meets your requirements.

Optimally selected components: The key to success.

POWERFUL

- ✓ 0.75...5.5 kW in two enclosure sizes
- ✓ Book format for space-saving control cabinet configuration
- ✓ Direct connection to the mains for 230 V and 400-480 V grids, DC-input is also available, 260 ... 750 V
- ✓ Low leakage current mains filter (<5 mA) integrated, optional without filter
- ✓ High overload for excellent dynamics (250% / 3 s, 200% / 60 s)

MOTOR OPERATIONS

- ✓ Universal control for asynchronous, synchronous, IPM or synchronous reluctance motors
- ✓ Motor operation with encoder feedback or encoderless ASCL/SCL for precise speed control
- ✓ Motor temperature monitoring with PTC or KTY sensors
- ✓ Two-channel multi-encoder interface
- ✓ Integrated GTR7 brake transistor
- ✓ Integrated brake control and brake supply

REAL-TIME

or simply serially

- ✓ Real-time Ethernet-based interfaces
- ✓ CAN
- ✓ RS232/485 for diagnostics or display

Analog & Digital I/O

- ✓ 8 digital and 2 analog inputs
- ✓ 2 digital and 1 relay output
- ✓ 1 Analog output 0 ... 10 V

AC mains voltage connection

Safety functions

24 VDC power supply

CAN interface

2 analog inputs

1 analog output

8 digital inputs
2 digital outputs
1 relay output

Status LEDs

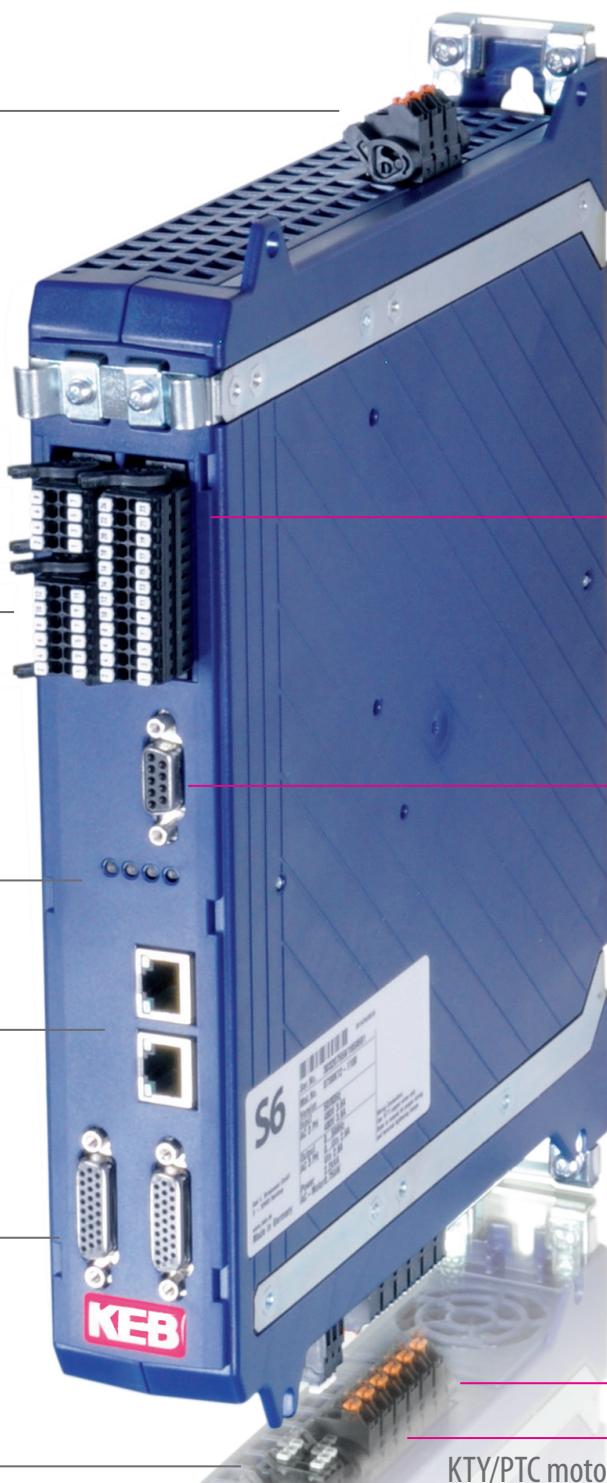

Real-time Ethernet bus
interfaces

Multi encoder interfaces:
Resolver, EnDat, Hiperface, BiSS,
SSI, incremental HTL/TTL,
incremental output

Brake output (24 V / 2 A)

Serial diagnostic interface

5

S6-K: Highly integrated and economical

The S6 with the K standard control option offers uncompromising integration, maximum performance and an optimum price/performance relationship.

These are the advantages of the basic version S6-K.
Fast link to the control level using EtherCAT and the CAN interface.

Also included is the integrated safety function „Safe Torque Off“ (STO).

Integrated functional SAFETY

- ✓ Safety function STO
in accordance to ISO 13849 Performance Level e / IEC 62061- SIL 3

Integrated Real-time Ethernet

- ✓ EtherCAT

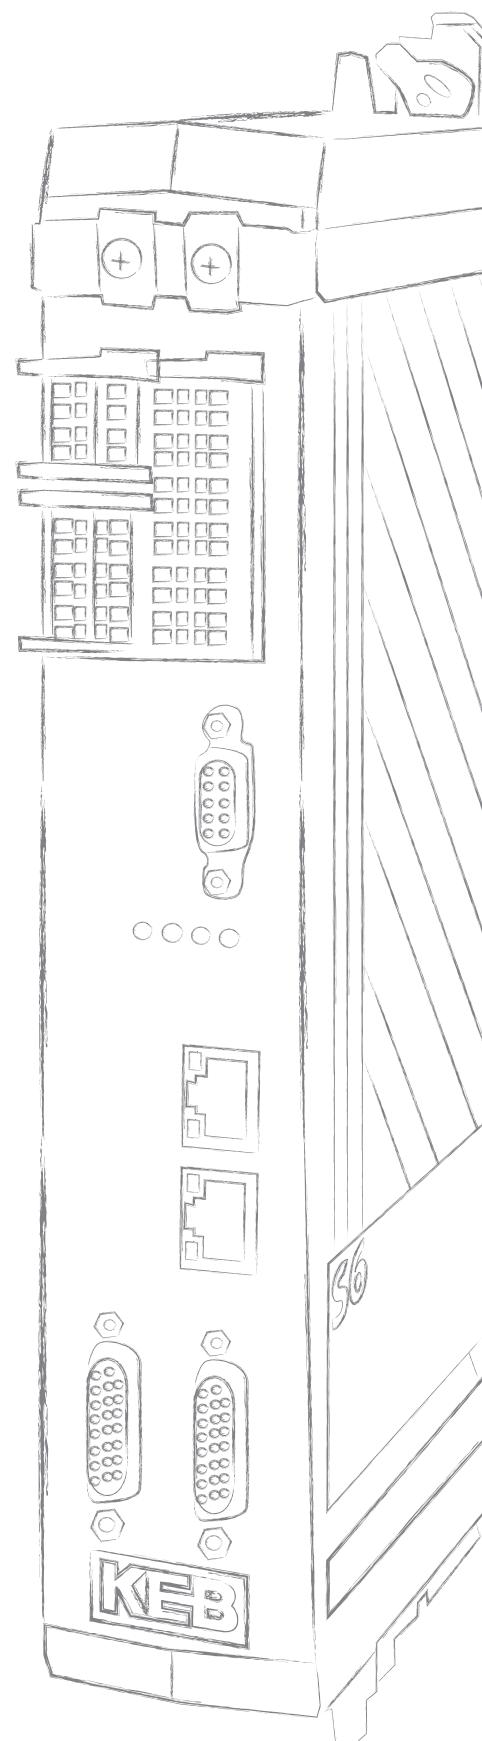

EtherCAT®

and as communication interfaces (standard feature)

- ✓ CAN

CANopen®

- ✓ Diagnostics RS232 / 485

S6-A: Modular and flexible

The characteristics of the S6-A control version can be summarised as modular, flexible and reliable.

It includes all of the advantages of the standard version and also offers users more flexibility for selecting the bus connection to the control level and a larger selection of safety functionality. To stand For the bus communication in a single device with the option - realtime Ethernet - in addition to EtherCAT optionally PROFINET IRT and POWERLINK available. STO and SBC are already integrated as standard safety features. Optionally, with safety module 2 users can also select up to three additional functions from an extensive package.

Modular functional SAFETY

Module 1

- ✓ Safety function STO according to ISO 13849 Performance Level e / IEC 62061- SIL 3 and SBC „Safe Brake Control“

Module 2

- ✓ Optionally with up to three additional functions, including:

SS1 "Safe Stop 1"	SLP "Safely-Limited Position"
SS2 "Safe Stop 2"	SLI "Safely-Limited Increment"
SOS "Safe Operating Stop"	SDI "Safe Direction"
SLS "Safely-Limited Speed"	SSM "Safe Speed Monitoring"

Real-time Ethernet module

- ✓ EtherCAT
- ✓ Profinet IRT
- ✓ POWERLINK

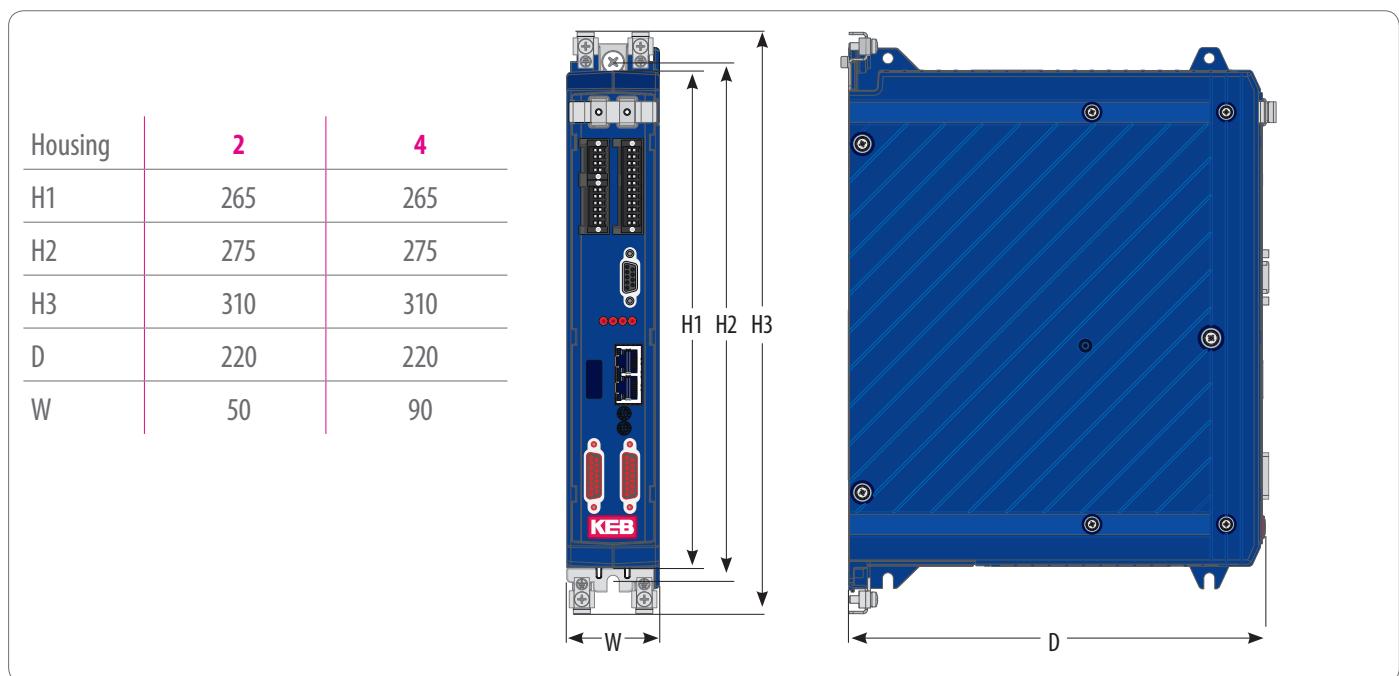

And as communication interfaces (standard feature)

- ✓ CAN
- ✓ Diagnostics RS232 / 485

Servo motors

Dynamic Line 3

- ✓ 0.5 ... 29 Nm in five sizes
- ✓ Low inertia - high impulse torque
- ✓ Resolver or absolute rotary encoder, HIPERFACE single or multi-turn
- ✓ High degree of total efficiency
- ✓ Lifetime lubricated
- ✓ Universal installation positions
- ✓ Robust mechanics
 - ✓ Option: COMBIPERM holding brake
 - ✓ Option: Keyway with key
 - ✓ Option: IP65 shaft sealing

Stall torque in Nm

Planetary gear SG paired with **Dynamic Line 3:**

- ✓ Low backlash
- ✓ High output torque
- ✓ High efficiency (97%)
- ✓ gear ratios $i = 3$ to 100
- ✓ Low audible noise
- ✓ Lifetime lubricated

Servo gear motors

Servo Motors - TA Series

- ✓ 1.5 ... 20 Nm in three sizes
- ✓ Low inertia - high impulse torque
- ✓ Easy plug connection, straight or angled (360° rotatable)
- ✓ Compact size - directly integrated in the gear modules
- ✓ High total efficiency, lifetime lubricated, universal installation positions and robust mechanics
- ✓ Resolver or absolute rotary encoder, BiSS single and multi-turn
 - ✓ Optionally with COMBIPERM holding brake

Feedback and Power Cables

- ✓ Pre-fabricated motor and encoder cables for easy installation
- ✓ High-quality and flexible design for cable drag chains
- ✓ Quick and tool-less installation with Speedtec plug connectors
- ✓ Optimally integrated shield connection
- ✓ For all supported motor and encoder types
- ✓ Available in lengths from 1 up to 50 meters

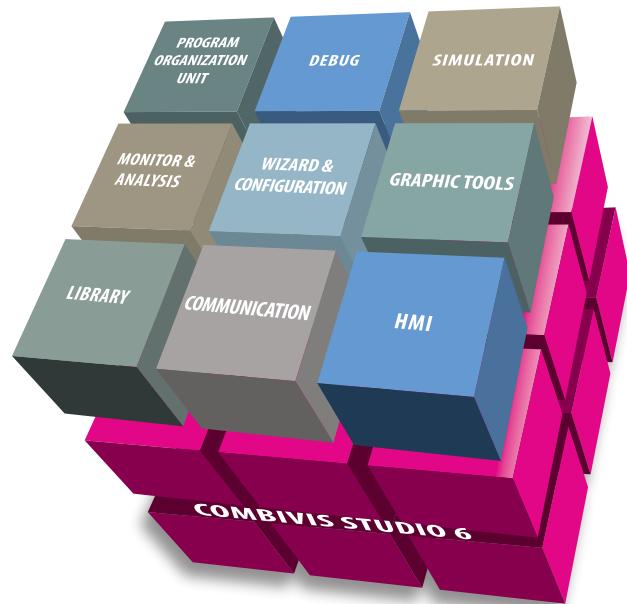

COMBIVIS 6

- ✓ Free and easy-to-use software for start-up, administration and analysis
- ✓ Integrated start-up assistants (Wizards) for quick and easy configuration
- ✓ Direct access to device documentation
- ✓ 16 channel oscilloscope for extensive analysis
- ✓ On-line parameter list comparison
- ✓ Parameterisation of key safety indicators and functions

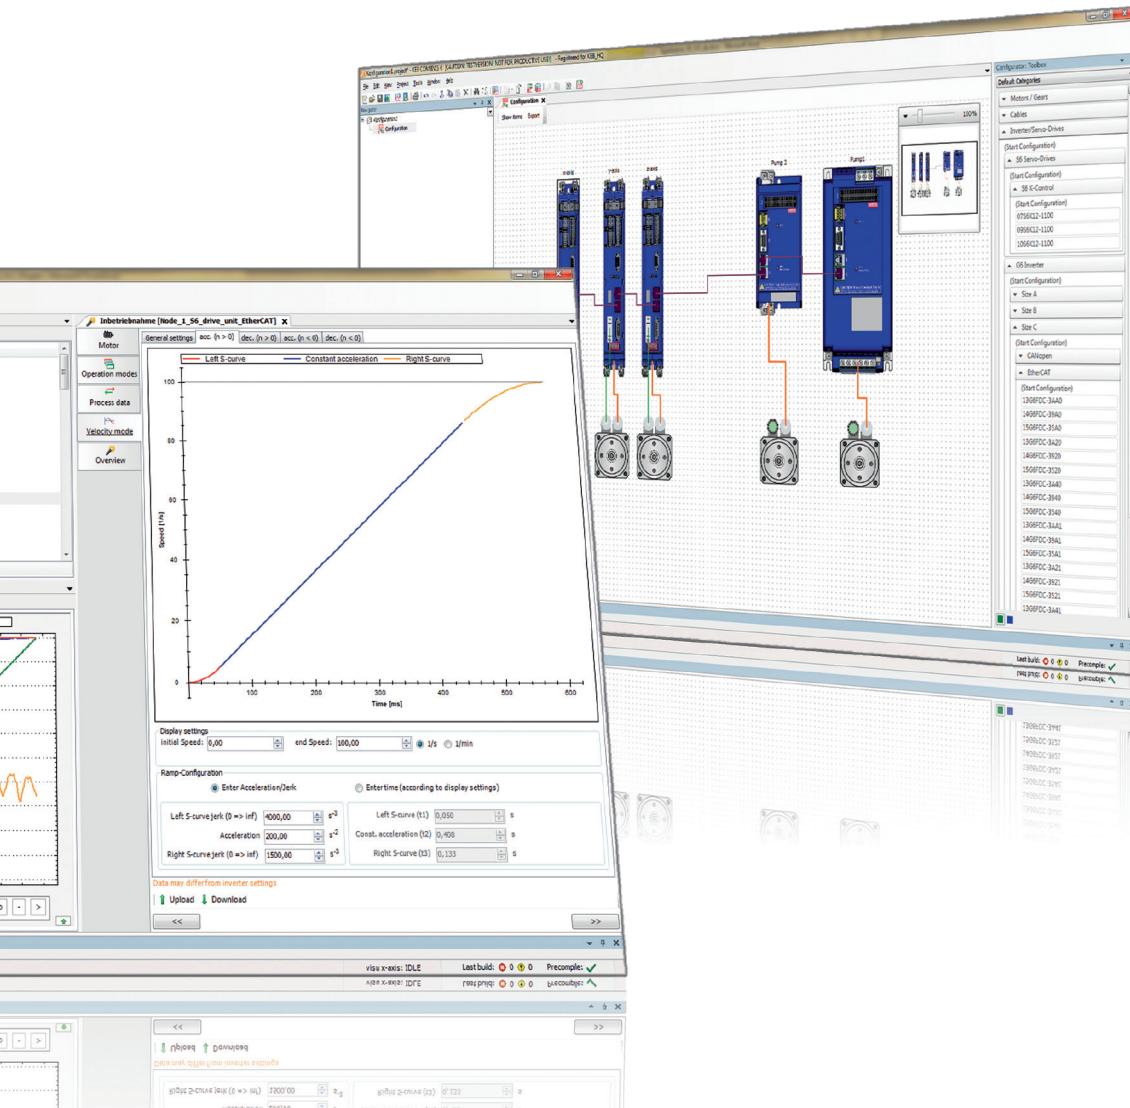

System configuration as a new component of COMBIVIS

- ✓ Access to complete KEB product database
- ✓ Intuitive gear component selection and system configuration using drag and drop
- ✓ Selection assistant with display of compatible components
- ✓ Display of all interfaces and connection components
- ✓ Extensive export function for quote list, Combivis Project, Excel ...

COMBIVIS studio 6 - the complete solution for system integration offers additionally

- ✓ PLC programming according to IEC 61131-3
- ✓ Bus master configuration (e.g.: EtherCAT, CAN, Profinet ...)
- ✓ Configuration of Remote I/Os
- ✓ Extensive functional module library
- ✓ Debugging tools for system optimization
